

CASA DE NABAIS

CASA DE NABAIS VINHA DO POMAR

Casa de Nabais Vinha do Pomar comes from a selected parcel that seeks a deeper interpretation of Loureiro. It maintains its Atlantic profile, but with greater structure, texture and ageing potential.

TERROIR

A specific plot within Casa de Nabais, set in the granitic context of the Lima Valley, with fine to medium grain granite and a higher clay content. Soils are predominantly sandy to sandy-loam, with variable drainage and low water retention, occasionally balanced by finer fractions at depth.

VITICULTURE

High-density vineyard, trained in unilateral cordon, with permanent cover cropping and no use of herbicides. Moderate yields, focused on concentration and precision. Plant protection follows a low-intervention approach, prioritising the balance of the vineyard ecosystem.

WINEMAKING

Hand-harvested in small 20 kg boxes. Short distance between vineyard and winery. Around 4 hours of skin contact. Gentle pressing in a pneumatic press. Static settling followed by fermentation in stainless steel with temperature control, and ageing in concrete to provide micro-oxygenation without disturbing the aromatic profile.

AGEING

Aged on fine lees for 4 months, with natural bâtonnage resulting from the rounded edges of the concrete vats, enhancing texture, complexity and natural stability.

FOOD PAIRING

Structured fish dishes (cod, monkfish rice, octopus); poultry (free-range chicken, partridge); vegetarian cuisine (vegetable risotto); semi-cured cheeses.
